

## *A custom App to exactly meet your business requirements*

Mobile Worker Plus provides a mature and robust framework that enables rapid creation and deployment of custom Apps for your mobile workforce. This together with our mature and comprehensive portfolio of products, covering aspects such as lone worker protection - Mobile Protect™, job/task management - Job Dispatch™ and incident reporting - Mobile Report™, gives customers incredible control and flexibility. The framework leverages on HTML5 technology and exposes APIs to utilize mobile device capabilities including capturing media, barcode and NFC scanning, location services and others. Furthermore the secure and reliable communication framework enables the developer to build Apps where data reliability is key (data is cached and stored on the mobile device and transmitted when a network is available).

## Benefits

- Mature and robust framework.
- Rapid and cost effective custom App development.
- Software built to meet your requirements without your business processes having to change.
- Flexibility to re-use existing App and/or back-office infrastructure.
- Easily extendable with flexible architecture enabling rapid creation of new services as you want.

## Why Mobile Worker Plus?

Mobile Worker Plus is a software company specializing in Business to Employee (B2E) solutions focused on field worker safety, productivity and real-time reporting.

With a strong background in Mobile and Apps we have been working with a wide variety of customers across multiple market sectors since 2005. Our flexible framework and large portfolio of Apps covers most standard requirements and is agile enough to be tailored to cover any unique business process. We are committed to continually evolving and working with our partners to ensure relevance in what is becoming a more connected and automated world.
